### PROFILE SUMMARY

Aspiring software engineer with hands-on experience in full-stack development using React.js, Next.js, and Django. Proficient in building REST APIs and developing web applications with a focus on clean, maintainable code. Strong problem-solving skills with knowledge of data structures and algorithms. Excellent team player with effective communication skills and adaptability to diverse work environments.

### EDUCATION

2022 - 2023 (Dropped out)  
INTERNATIONAL ISLAMIC  
UNIVERSITY CHITTAGONG

- Bsc in Computer Science
- GPA: 3.90 / 4.0

### SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, C++
- **Frontend Development:** React.js, Next.js, HTML, CSS, Tailwind CSS, Shadcn UI
- **Backend Development:** Django, Node.js, Express.js
- **Databases:** MongoDB, PostgreSQL
- **API Development:** RESTful API design, Django REST Framework, Express.js APIs
- **Component Development:** Creating reusable UI components
- **Documentation:** API documentation, Swagger

### SOFT SKILLS:

- Strong communication skills
- Team collaboration
- Working independently on complete projects
- Client interaction
- Adaptability to different environments
- Problem-solving mindset
- Self-motivated learning

### PORTFOLIO PROJECTS

#### Bangladesh 2024

2024

Junior Frontend Engineer

- Implemented responsive web interfaces from Figma designs using Next.js, TypeScript, Shadcn, and Tailwind CSS; developed reusable components including modals and form elements for the project's internal data engine tool. Successfully launched and managed multiple cross-channel campaigns, including digital marketing, social media, and traditional advertising, resulting in improved customer acquisition and retention rates.
- Contributed to approximately 30% of the main project development and currently provide ongoing bug fixes and maintenance support as needed.

#### Inventory Management System

2024

Full Stack Developer

- Independently developed a complete MERN stack inventory management solution for a local client, featuring multi-store management, sales reporting, stock updates, and real-time inventory tracking.
- Built the entire system from scratch with React.js frontend, Node.js/Express backend, and MongoDB database, handling the full development lifecycle from design to deployment.

#### Pixello

2024 - PRESENT

Backend Developer

- Developed a comprehensive social media platform REST API using Django and PostgreSQL, implementing user authentication flows (registration, account activation, password recovery) and complete documentation with Swagger.
- Built robust API endpoints for social media functionality including user posts and post interactions; currently developing the frontend to complete the full-stack application.
